

### **Ms Sian van den Bogaerd-Rance**

Sian is a management assistant at KLM Cargo Worldwide Operations. She has been working in the airline industry for 22 years. Sian's roots are in the Netherlands, where she was born and raised by British parents. She however has also lived in Switzerland, England and travelled the world before rooting again in the Netherlands.

Sian is married, has 2 children, is a patient with the rare disease Common Variable Immune Deficiency (CVID), works 4 days a week, is a board member of KLM's female network "Women on Board", an ambassador for Takeda and the last 5 years she has been a boardmember of the Stichting voor Afweerstoornissen (SAS).

2 years ago the future of the SAS was grim and Sian, alongside the current president Jose Verstegen, managed to attract 3 new boardmembers and 20 (!) volunteers. With the help of all the volunteers they have reinvented the SAS and brought it into the 21<sup>st</sup> century.

Sian's motto is: dream it, wish it, do it! and live life to the max!
